

Neutron Scattering Opportunities at the Manuel Lujan Jr. Neutron Scattering Center

- “Hot” experiments—fast turnaround
- Mail-in samples on some instruments
- Student training programs
- Support for graduate students doing experiments
- Multi-year proposals encouraged

1996 beam from July–November
proposals due April 22, 1996

1997 beam from February–June
call for proposals early Fall 1996

1995 run cycle had 84% beam availability
